

SendKit vs Instantly

The short version: Instantly built the category and sells five products around cold email. SendKit is one platform where dedicated IPs and isolated infrastructure come standard on every plan instead of unlocking at Enterprise.

	SendKit	Instantly
Dedicated IPs	Every plan, from \$99	Enterprise only ("Private Deliverability Network")
Infrastructure	Fully isolated per account. Warmup and cold sending both run on IPs allocated only to you	Shared IP pools on \$47, \$97, and \$358 plans
Validation	Built in, every plan	Separate paid product
Inbox placement testing	Built in, every plan	Separate paid product
Blacklist monitoring	Built in, every plan	Not offered natively
Cost to match	One \$99 plan: 75,000 emails, 30,000 leads, all tools	About \$141 per month stacked across separate products
Billing	One subscription, one renewal	Multiple products, multiple renewals
Health controls	Per-mailbox visibility, auto-pause when health drops	Campaign-level
Interface	Modern, polished UI	Familiar suite UI

WHAT YOU GET WITH SENDKIT THAT INSTANTLY DOESN'T HAVE

- **AI reply agent.** Modern communication quality, and it tracks follow-ups from your lead too.
 - **Blacklist monitoring.** Real-time alerts when any sending IP hits a blacklist. Not offered natively on Instantly.
 - **Full white-label.** Reports, login screen, URL, API calls, logo, and colors all carry your brand.
 - **MCP, CLI, and API.** More extensive APIs with smart routing, plus MCP and CLI connections.
- **Dialer in the Unibox.** A reply lands, you dial the lead right there. No breaks, no tab-switching.
 - **Per-mailbox health.** Reply and bounce visibility per mailbox, with auto-pause when health drops.
 - Unlimited workspaces. Share your sending limit across workspaces and clients however you like.
 - Unlimited team members. No per-seat pricing at any tier.

CLEAR EXPECTATIONS: WHAT YOU GET

- Low bounce rate and better deliverability
 - Better time to lead from the reply agent and reply system
 - Better white-label report system and custom GTM reporting
 - Better inbox pricing and diversification across Google, Microsoft, and Azure mailboxes
 - Better scaled pricing on higher volumes. The platform is made for scale
- Better advanced settings for sending management
 - Faster inbox loading for faster time to lead
 - Unlimited workspaces and team members with custom roles
 - A way clearer, easier platform, built for heavy Claude users

WHERE INSTANTLY IS STRONG: The category leader: huge community, wide standalone feature depth, larger data surface.

WHAT INSTANTLY USERS REPORT

G2 4.8/5 ACROSS 3,486 REVIEWS, 998 DISLIKE ANSWERS MINED 2026-07-12; TRUSTPILOT RECENT REVIEWS, THE PROFILE'S OVERALL RATING IS CURRENTLY SUPPRESSED BY TRUSTPILOT FOR A GUIDELINES BREACH; TRUSTRADIUS

- On G2, pricing is the #1 dislike theme (112 mentions) with caps/limits right behind (62): "Finding leads via Instantly is expensive"; "need to Increase outreach data limit."
- Paywalls: "can't even reply to leads without upgrading to Hyper Growth"; "hidden fees and no refunds allowed."
- Lock-in: "inboxes are non-transferable", reviewers report domains bought through Instantly are hard to move out.
- Billing: "they re-enable the subscription after cancelling"; non-refundable setup fees.
- Support: "jumping from agent to agent", though individual named agents do get praise.

Switching takes about 30 minutes. API key in, campaigns, copy, and leads import automatically. Most teams finish in about 30 minutes. Mailboxes bought through InboxKit move in one step. Want the step-by-step? Ask for the **Cold Email Platform Migration Kit**.
